## Ardian announces the sale of its stake in Mobius Group to Groupe Saretec

Ardian, a world-leading private investment house, announces that it has sold its stake in Mobius Group, a tech-enabled mobility and fleet management operator headquartered in Madrid, Spain.

Founded in 2014 by José Piñera, Mobius is a pioneer fleet management, car repair, appraisals, and mechanical warranties player. The company leverages a set of proprietary technological solutions to help customers to digitalize their processes.

With more than €40 million in sales, Mobius is the leading Iberian platform for fleet managers assisting top tier renting and rent-a-car international players as well as major Spanish financial institutions and insurance companies.

Since the Ardian's Growth team took a stake in the company in 2018, Mobius has more than doubled its revenues and completed 4 acquisitions enabling the company to both diversify its product offering and enlarge the customer base. Mobius has also strengthened its technological expertise by investing in and commercializing new software tools.

*"The Ardian's Growth team has supported us in our development both in terms of new product deployment and build-up plan. Since their investment, they helped us challenge our strategy to scale the company and strengthen our technological positioning."*

● JOSÉ PIÑERA ● FOUNDER AND CEO OF MOBIUS GROUP

*"Congratulations to José and the whole Mobius team. It has been very exciting to work alongside them in these years. Mobius is a great example of Ardian growth's playbook: identify the leading companies in Europe and help them accelerate the growth via product and geographical expansion as well as build-up strategy."*

● ROMAIN CHIUDINI ● MANAGING DIRECTOR GROWTH, ARDIAN
